## *Smile...*

Your smile is your most important feature.

When you first meet someone, they focus on your eyes and your teeth and before you utter a word, your smile will speak volumes about you.

An attractive smile can improve your entire appearance and enhance your self-esteem, and a confident smile can take years off your look.

A beautiful smile can help build the self-confidence we all need to enjoy uninhibited interaction with others. It might be exactly the boost you need to kick start your life or a new career.

If you are unhappy with the appearance of your teeth, talk to us, you might be surprised just how much of a difference this exciting step could make to you, and also how easily it can be achieved.

At **T K Barr Dental Care** we provide high quality treatment in a friendly and comfortable environment, centred on the needs of you, the patient.

The Team encourage preventive techniques, helping you to understand how to maintain the health of your mouth and keep it free of tooth decay and gum disease.

We are committed to continuing dental education and keeping abreast of changes in modern dentistry.

Our dentists and dental team provide high-quality dentistry in a gentle caring environment. Our commitments to you are:

- ✿ Providing pain-free dentistry
- ✿ Practising preventively - we want to give you dental health, not just cure your dental disease
- ✿ Referring you to our dental hygienist to help achieve dental health and a beautiful smile
- ✿ Treating all patients in-house where possible - but referring to a specialist when necessary
- ✿ Giving you the time and encouragement to ask questions and discuss your options
- ✿ Discussing and providing treatment plans as a matter of policy so that prior to any work being carried out, you know the options and the costs

## *Cosmetic Dentistry...*

As techniques improve and patient awareness increases, people are demanding that their smile is bigger and brighter. Cosmetic dentistry is that branch of restorative (reparative) dentistry, which is concerned with improving patient's smiles. A whole range of treatments are available at the **T K Barr Dental Care**, some of them quite minimal; Bleaching and microabrasion are the least invasive and improve the colour of the front teeth surfaces. Addition of tooth coloured filling material can dramatically improve the appearance of teeth (which have become worn) with little or no destruction of good natural tooth. Veneers (like false finger nails) can be cemented on to the front teeth to improve their appearance and in

certain cases, their alignment.

Crowns "caps" are also an option but as they are more destructive, careful consideration and discussion with the patient is necessary to balance the (aesthetic) gains with the disadvantages of removing natural tooth.

Regular maintenance of your mouth means less active treatment of disease is required and so aesthetic or cosmetic options to improve your smile are more in demand.

**At T K Barr Dental Care** we are pleased to be able to offer this service to our existing patients and indeed to extend this capability to new patients who may wish to improve their smile and appearance.

Talk to us and let us help you to improve your smile!

## *Your Choice...*

As individuals we have to make more and more provision for our own health needs. **T K Barr Dental Care** believes that the best way of making treatment affordable, without compromising our high quality of care, is to offer you our Practice Membership Plan. Our plan offers a simple flexible way to pay for your dental care and provides you with the following benefits:

- ✿ Access to quality dental care
- ✿ Greater Choice of treatment and materials
- ✿ Regular cleaning and maintenance of gum health
- ✿ Early diagnosis of problems
- ✿ An extended payment facility to spread additional costs
- ✿ Substantial discounts on additional treatments and sundries
- ✿ Worldwide Trauma and Emergency Call-out Insurance

For further information, ask reception for a copy of our brochure or alternatively contact a member of the team, we are here to help.

## *The Team...*

We never underestimate the importance of a happy, healthy practice and at the heart of this is our staff.

You will find them cheerful, motivated and highly capable individuals delighted to be of service to you. The strength of this is self evident to anyone who comes to **T K Barr Dental Care** for their treatment and is reflected in the testimonials we receive from our clients.

We strive to provide a warm and friendly atmosphere and to make our patients feel calm and secure.

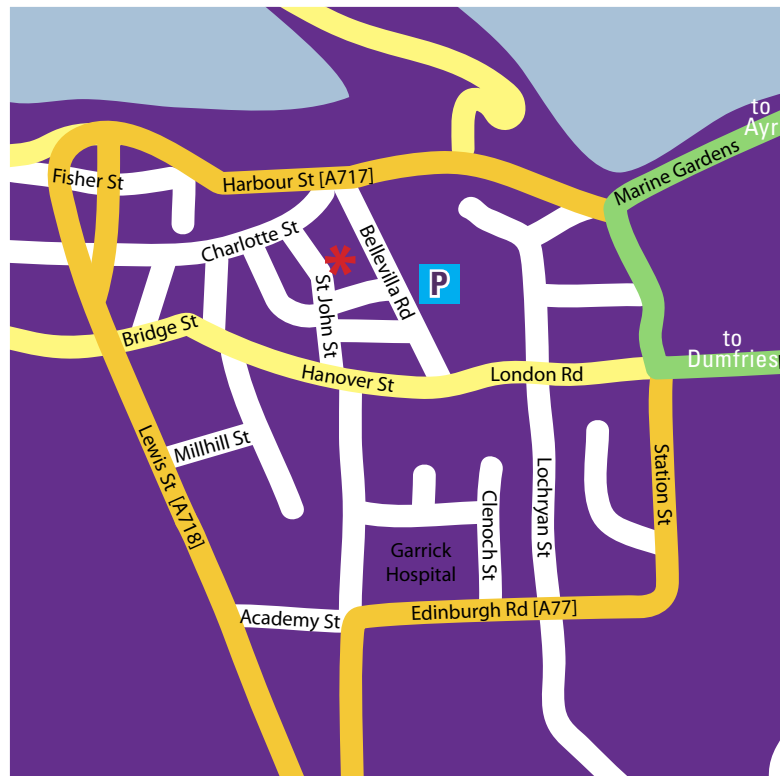

### **Dr. T Kenneth Barr BDS**

Kenny qualified from Glasgow University in 1989 and is the Principle Dentist. He practiced in Lanarkshire for several years before establishing the practice here in Stranraer in 1993. He spends a good deal of his time on postgraduate development and encourages all team members to undertake further training. Kenny is particularly interested in advanced restorative and cosmetic dentistry, helping all his patients achieve a healthy, confident smile.

He is a family man with 3 children and enjoys spending any spare time gardening and golfing - the latter very badly!

*Creating Confident Smiles*
